

SALAH-EDDINE LACHKAR

Senior Software Engineer & Technical Lead

React | Next.js | TypeScript | Node.js

Casablanca, Morocco | UAE resident | Open to remote work

lachkar.salah@outlook.com

lachkar.me | github.com/artpumpkin | [LinkedIn](#)

PROFILE

Senior software engineer focused on full-stack development for SaaS platforms, trading dashboards and Web3 applications with React, Next.js and Node.js. Combines hands-on development with technical leadership, including teams of approximately seven, and ownership from requirements through deployment.

PROFESSIONAL EXPERIENCE

MRPNL

May 2026 - Present

Senior Software Engineer & Technical Lead

Side SaaS project | Remote | mrpnl.com

- Build a trading education and market-monitoring platform with Next.js, NestJS and PostgreSQL; coordinate delivery with the team.
- Develop administration, content and invoice workflows, including currency display and shared credits, with component and API tests.
- Create live market dashboards, technical-indicator views, and reusable content and image-generation automations.

TickTickTrader

Mar 2023 - Apr 2026

Technical Lead | Previously Technical Advisor

Isle of Man-based company | Remote, then Abu Dhabi from Oct 2024

- After four months as advisor, led approximately seven people maintaining customer dashboards, aMember systems, Forest Admin tooling and analytics.
- Developed React/TypeScript administration interfaces and backend integrations for trading operations while coordinating team delivery.
- Built market-monitoring interfaces, trading algorithms and backtesting tools using Java/Bookmap, C#/NinjaTrader and Pine Script/TradingView.

Chain Pixel Labs

Oct 2021 - Jan 2024

Junior Software Engineer → Senior Software Engineer / Technical Lead

Main role through Mar 2023; occasional support through Jan 2024.

- Built React/TypeScript dashboards and decentralized applications for Samurai Rising and Samurai Legends, integrating APIs, wallets and Solidity smart contracts.
- Expanded into MERN full-stack development, backend services and automation; progressed to leading approximately three people alongside engineering work.

EARLIER EXPERIENCE

Pink Panda Holdings

2021 - 2022

Independent Software Contractor | PinkPanda / BambooDAO

- Developed wallet beta Web3 components, Solidity staking contracts, a React interface, Hardhat tests and BAM migration tooling.

Freelance Development

2021

JavaScript & Web Automation Developer

- Created an EVM token-trading bot with Node.js and Ethers.js, and automated browser workflows with Selenium and Puppeteer.

TECHNICAL SKILLS

Frontend HTML, CSS, JavaScript, TypeScript, React, Next.js

UI and design Figma, Tailwind CSS, Chakra UI, shadcn/ui, Framer Motion

State and forms Zustand, TanStack Query, React Hook Form, Zod

Backend and data Node.js, Express, NestJS, REST APIs, PostgreSQL, MongoDB, Prisma

Quality and delivery Vitest, Jest, Postman, Lighthouse, Git/GitHub, Docker, GitHub Actions

Operations Caddy, PM2, Cloudflare

Collaboration Agile practices, Jira, Trello, Monday.com, Slack

SELECTED PROJECTS

Mosaic | Desktop finance and health tracker

2026

github.com/artpumpkin/mosaic-desktop

Built with Tauri, Next.js, TypeScript and SQLite, with local records and encrypted backup and transfer.

Idescape | Digital agency website

2026

idescape.com

Built alongside MRPNL with Next.js, Tailwind CSS and Framer Motion; added form validation, accessible mobile layouts, SEO and Docker/GitHub Actions delivery.

SAFAR | Arabic NLP research platform

2020 - 2021

[Official project](#)

Master's project with EMI: built a React/Chakra UI frontend and contributed to research comparing Python Arabic NLP tools. Implemented bilingual and right-to-left layouts, data exports, speech input and progressive web app support.

AI ASSISTED DEVELOPMENT

Use Codex, with previous experience in Claude and GitHub Copilot, to develop components and applications through iterative prompts, tests and UI review. Build reusable agent skills and workflow plugins; review generated code for architecture, security and performance.

EDUCATION

Master in Data Science and Big Data

2019 - 2021

Hassan II University of Casablanca

Bachelor's Degree in Mathematics and Computer Science

2018 - 2019

Hassan II University of Casablanca

Languages English and Arabic
